Rust Removal from Steel

17th April 2017

OVERVIEW

Summarize what you are doing in your project for John Deere

GOALS

1. Remove rust from 3' x 4' steel
2. Meet EPA guidelines for wastewater

PROJECT PROPOSAL

Describe the specifics in how you are achieving both goals in the project. Use the provided rubric as a guide to what to include in the project proposal. Delete all instructions.

Remove rust from 3' x 4' steel:

Description here. Follow expectations in the rubric.

Meet EPA guidelines for wastewater:

Description here. Follow expectations in the rubric.

DRAWING

Use Google Drawings or Slides to create your schematic diagram or blueprint following the rubric expectations. Insert diagram on this page. Delete all instructions.

Drawings: In Google Docs, select “Insert” “Drawings” and create your diagram and labels

Slides: Create your diagram and labels in Google Slides. Select “File” “Download as” “jpeg.” When you open the jpeg, either copy and paste into this google doc or save and insert the image.

Balance

Use the chart below or make one using Google Sheets and “Insert” “Chart”

Use the rubric as a guide for expectations. Delete all instructions.

Item	Cost per unit	Number of units	Total
