MARCH MADNESS ELEMENT CHAMPIONSHIP ASSIGNMENT

Task:

1. You will be assigned an element
2. Create google slide(s) - **Max. 1 minute presentation**
 - a. Element name, atomic number, and group name
 - b. A convincing argument about how the element (or compounds with the element in it or reactions involving the element) is **lethal** to humans. Give at least 2 reasons.
 - c. Utilize your chemistry knowledge and content from this course (density, electronegativity, reactivity, nuclear, bonding, reactions, etc.)
 - d. Include at least 2 visuals.
 - e. Be creative, entertaining, and persuasive!
3. You will present your argument to the class in a head-to-head battle against another element. Be prepared to voice a rebuttal to the element you are battling.
4. The class will vote on which element is the most lethal.
5. Winners advance to the next round until a final winner is selected.

ELEMENT ASSIGNED: _____ **Atomic #:** _____

Rubric:

	0 pt	1-4 pts	5 pts	EC +1 pt
Battle Rules	Missing all or not observed	Missing items	Presentation > 30 sec. Presentation < 1 min. Google slide format Easy to Read (32pt+ font) Shared with teacher	
Content	Missing all or not observed	Missing items	Element Name/Atomic # Group Name Lethal Property #1 Lethal Property #2 Utilize Chemistry Content	Additional lethal properties Evidence of extreme research
Persuasive	Missing all or not observed	Missing items	Related Visual #1 Related Visual #2 Clear/Concise Eye-contact/Well-practiced Includes a rebuttal	Made instructor laugh Made instructor scared Showmanship
